

# NICHOLAS J. DYGERT

Department of Earth, Environmental and Planetary Sciences, University of Tennessee, Knoxville, TN  
ndygert1@utk.edu | (865) 974 6022 | <https://dygert.utk.edu/> | 959 Citations | h-index = 17

## Research Interests

Using experiments, analyses of natural materials, numerical models, and field observations to understand dynamic processes in planetary interiors. Petrogenesis and high-temperature geochemistry. Melt migration and melt-rock reaction. Rheological properties of minerals and melts, two phase flow. Trace element partitioning. Earth and Planetary science.

## Academic Appointments

Present	<b>Lawrence and Dawn Taylor Associate Professor of Planetary Geosciences</b> Department of Earth and Planetary Sciences, University of Tennessee
2019 – 2023	<b>Lawrence and Dawn Taylor Assistant Professor of Planetary Geosciences</b> Department of Earth and Planetary Sciences, University of Tennessee
2017 – 2019	<b>Assistant Professor of Planetary Science</b> Department of Earth and Planetary Sciences, University of Tennessee
2015 – 2017	<b>Distinguished Postdoctoral Fellow</b> Department of Geological Sciences, University of Texas at Austin Mentors: Whitney M. Behr, Marc A. Hesse, Jung-Fu (Afu) Lin

## Academic Preparation

2015	<b>Ph.D.</b> , Brown University Experimental petrology, geochemistry, rock deformation Advisors: Yan Liang and Greg Hirth; Committee: Steven W. Parman, E. Marc Parmentier, Peter B. Kelemen Thesis: Experimental and field constraints on the physicochemical evolution of the terrestrial and lunar mantles
2007	<b>B.S., cum laude</b> , University of Rochester Major: Geochemistry, Minor: History Advisors: Asish R. Basu and Carmala N. Garzione Thesis: Petrochemistry of the Jayu Khota crater, Bolivian Altiplano

## Publications

‡ graduate student supervised by Dygert; † undergraduate; § postdoc

## Funding

Active to Dygert: \$1,072,890 in research; \$445,854 in outreach  
 Awarded to date: \$2,224,306 in research; \$445,854 in outreach

## Proposals in Preparation

### **Experimental Investigation of Lunar Mantle Rheology: Critical Parameters for Understanding Cumulate Mantle Overturn and the Thermochemical Evolution of The Moon**

To be submitted to the NASA Solar System Workings Program  
 PI with Greg Hirth (Co-PI), Yan Liang (Co-PI).

## Pending Proposals

## Research (Active)

2025 – 2027

### **Thermal Evolution of Enstatite Chondrite and Aubrite Parent Bodies: Constraints from Silicate Geothermometry**

NASA Future Investigators in NASA Earth and Space Science and Technology (FINESST) Program

\$147,277 to PI Dygert; FI (Future Investigator) PhD student Emily Etheridge

2023 – 2025

### **Collaborative Research: Evolution of the Tristan-Gough-Walvis Ridge Hotspot System: Age and Composition of Expedition 391/397T Volcanic Basement**

NSF Marine Geology and Geophysics Program

- \$195,944 to Co-PI Dygert; Science PI Jesse Scholpp (Tennessee). With Wendy Nelson (PI), Bob Duncan, John Shervais, and others.
- 2023 – 2028 **Research Activities Supporting Science and Lunar Exploration (RASSLE)**  
NASA Solar System Exploration Research Virtual Institute (SSERVI) CAN-4  
\$568,059 to Co-I Dygert; PI Dana Hurley (JHU-APL)
- 2021 – 2024 **Collaborative Research: Magmatic and Mechanical Extension of the Challenger Deep Forearc Segment: Insights into Subduction Initiation**  
NSF OCE Marine Geology and Geophysics Program, \$122,481 to Co-I Dygert; PI Robert Stern (UT Dallas)
- 2020 – Present **Oak Ridge National Laboratory / University of Tennessee Science Alliance**  
\$29,349.
- Outreach (Active)
- 2020 – 2025 **University of Tennessee Space Outreach Activities in East Tennessee**  
NASA Space Grant Program, \$326,556 + \$119,298 in augmentations  
Institutional PI Dygert (Lead PI A. Strauss, Vanderbilt)
- 2023 – 2026 **Collaborative Research: Cultivating Tomorrow's Innovators through Exploring Planetary Images with Artificial Intelligence**  
NSF Advancing Informal STEM Learning Program, \$1.7M  
Co-PI with Ping Wang (PI), and others.
- Research (Completed)
- 2020 – 2023 **Experimental geochemistry and model constraints on lunar mantle dynamics**  
NASA Solar System Workings Program, \$261,128  
PI Dygert.
- 2022 – 2023 **Petrogenesis of basalt lavas from the Tristan and Gough hotspot: Insights from mineral and melt inclusion chemistry**  
United States Science Support Program (on contract from NSF)  
\$17,991 to PI Dygert; Science PI PhD student J. Scholpp
- 2018 – 2023 **New constraints on thermal evolution, thermal structure, and magmatism on asteroids: Application of a REE-in-two pyroxene thermometer to meteorites and development of next-generation thermal models, and a post-COVID19 Funded Extension request**  
NASA SMD Post-COVID Recovery Program, \$110,907 to PI Dygert;  
NASA Solar System Workings Program, \$329,619 total; \$254,734 to PI Dygert; Co-PIs Harry Y. McSween, Marc A. Hesse.
- 2023 **Participation of Jesse Scholpp on IODP Expedition 391**  
United States Science Support Program (on contract from NSF)  
\$6,426 to PI Dygert; Science PI PhD student J. Scholpp
- 2017 – 2022 **Rheology of an evolving lunar mantle: New experimental constraints and generalized mantle viscosity models.**  
NASA Solar System Workings Program, \$222,375 to Dygert  
Co-PI with Greg Hirth (PI), Yan Liang (Co-PI).
- 2021 **Geochemical Interaction between CO<sub>2</sub> and Caprock for Safe Carbon Sequestration**  
University of Tennessee Institute for a Secure & Sustainable Environment (ISSE),  
\$45,000, Co-I with Khalid Alshibli (PI).
- 2015 – 2017 **Melt migration dynamics revealed by two-dimensional geochemical mapping of tabular dunites at the Bay of Islands Ophiolite, Newfoundland**  
Jackson School of Geosciences Distinguished Postdoctoral Fellowship, \$140,000
- 2016 **Effective viscosity of planetary mantles: Developing predictive models from experimental observations**  
Jackson School of Geosciences Seed Grant, \$13,750

- 2014 Co-I with Whitney Behr  
**International Travel Grant**  
 6<sup>th</sup> Lherzolute Conference, Marrakech, \$2,000  
**Dissertation Fellowship**  
 Brown University
- 2012 – 2013 **Rheology of ilmenite and ilmenite-bearing harzburgite**  
 Rhode Island Space Grant Graduate Fellowship, ~\$12,000

## Honors

- 2024 **College of Arts and Sciences Convocation Research Award – Early Career**  
 2024 **Life Long Learner Award**, Muse Knoxville  
 2024 **A Top Cited Article 2022-2023: Meteoritics and Planetary Science**  
 2020 **A Most Downloaded Paper in 2019: Journal of Geophysical Research – Solid Earth**  
 2019 **Endowment: Larry and Dawn Taylor Chair in Planetary Geosciences**  
 2019 **Outstanding Teacher Award**, University of Tennessee Geoclub  
 For commitment to service as an educator and mentor to both graduate and undergraduate students
- 2015 **Dissertation Prize**, Sigma Xi, Brown Chapter  
 2014 **Distinguished Postdoctoral Fellowship**, University of Texas at Austin  
 2012 **Rhode Island Space Grant Graduate Fellowship**  
 2012 **Inducted into Sigma Xi**  
 2008 **Admirable Apexian** (nominated)  
 2007 **McNair Summer Research Fellowship**, Florida International University  
 2007 **B.S. awarded with High Distinction and High Honors in Research**  
 University of Rochester
- 2007 **Inducted into Sigma Gamma Epsilon** (Earth Science honor society)  
 2003 – 2007 **Dean’s List 7/8 eligible semesters**  
 University of Rochester

## Teaching Experience

University of Tennessee, Knoxville

- 2019; 2022; 2024 **Geochemical Modeling (GEOL 490/590)**  
 Three credits. Overall student evaluation 4.85; 5.0 / 5 (2019; 2024; taught as an independent study for three students in 2022)
- 2023 **Mariana Trench Studies (GEOL 490/590)**  
 Two credits. This multi-institutional, multinational seminar-lecture prepared the research team for an upcoming cruise to sample the Challenger Deep forearc, and provided a foundational background for students interested in marine geology. Overall student evaluation 4.91 / 5  
**Kinetics (GEOL 630)**  
 Three credit graduate seminar. Spring 2023, enrollment (7) precluded release of course evaluation data.
- 2017 – 2023 **Mineralogy (GEOL 310)**  
 Four credits. Overall student evaluations 4.53; 4.70; 4.45; 4.48; 4.52; 4.35; 3.97 / 5 (2017; 2018; 2019; 2020; 2021; 2022; 2023)
- 2018 – 2021 **Scientific Presentations (GEOL 596)**  
 One credit. Overall student evaluations 4.46; 4.19; 4.43; 4.36 / 5 (2018; 2019; 2020; 2021)
- 2021 **New Views of the Moon (GEOL 630)**  
 Three credit graduate-level seminar. Overall student evaluation 4.78 / 5
- 2020 **Exploring the Planets (GEOL 104)**

Four credit introductory course. Overall student evaluation 3.80 / 5

University of Texas at Austin

2016 **Guest Lecture**, Experimental Methods in Structural Geology

Brown University

2014 **Mineralogy** Teaching Assistant

Overall student evaluation 4.7 / 5

2012 **Structural Geology** Teaching Assistant

Overall student evaluation 4.8 / 5

2010 **Introductory Geology** Teaching Assistant

Overall student evaluation 4.6 / 5

University of Rochester

2007 **Historical Geology** Teaching Assistant

### **Pedagogical, Professional, and Diversity, Equity and Inclusion Training**

2024 University of Tennessee Safe Zone Training (Tier 2)

2022 Vols ACT (Active Bystander) Training

2018; 2021 University of Tennessee Strategies and Tactics for Recruiting to Improve Diversity and Excellence (STRIDE) Training

2021 University of Tennessee Safe Zone Training (Tier 1)

2019 SERC Career Development Workshop for Early Career Geoscience Faculty

2019 University of Tennessee Initiative for the Future Faculty Mentoring Program

2018 University of Tennessee Strategies and Tactics for Recruiting to Improve Diversity and Excellence (STRIDE) Training

2017 University of Tennessee New Faculty Teaching Institute

2016 SERC Preparing for an Academic Career in the Geosciences Workshop

2014 Sheridan Center for Teaching and Learning, Brown University

Certificate I, Reflective Teaching

### **Invited Seminars**

2024 University of Tokyo, Japan (geochemistry group seminar)

2022 Michigan State University (department seminar)

Pennsylvania State University (department seminar)

University of Mississippi (department seminar)

2021 South Dakota School of Mines and Technology (department seminar)

2020 Purdue University (department seminar)

Fermilab (lab colloquium, canceled because of COVID-19)

University of Chicago (department seminar)

2018 Case Western Reserve University (department seminar)

University of Georgia (department seminar)

Centre National de la Recherche Scientifique, Toulouse, France (Solid Earth group seminar)

2017 University of Tennessee, Knoxville (department seminar)

Western Carolina University (department seminar)

2016 NASA, Johnson Space Center (astromaterials seminar)

Southern Methodist University (department seminar)

2015 Institute for Geophysics, UT Austin (department seminar)

Jackson School of Geosciences, UT Austin (department seminar)

Rice University (department seminar)

University of Texas at Arlington (department seminar)

2014 Geophysical Laboratory, Carnegie Institution of Washington  
 2013 Woods Hole Oceanographic Institution (marine geology group seminar)  
 Massachusetts Institute of Technology (planetary group seminar)

### Conference Talks

2024 55<sup>th</sup> Lunar and Planetary Science Conference  
 2023 GSA Fall Meeting, Pittsburgh (**invited**)  
 Goldschmidt Conference, Lyon (**invited**)  
 2021 AGU Fall Meeting, New Orleans  
 52<sup>nd</sup> Lunar and Planetary Science Conference  
 2019 AGU Fall Meeting, San Francisco  
 50<sup>th</sup> Lunar and Planetary Science Conference  
 2018 AGU Fall Meeting, Washington DC (**invited**)  
 67<sup>th</sup> GSA Southeast Section Meeting, Knoxville  
 49<sup>th</sup> Lunar and Planetary Science Conference  
 2017 AGU Fall Meeting, New Orleans (two talks; one **invited**)  
 Goldschmidt Conference, Paris (**invited**)  
 48<sup>th</sup> Lunar and Planetary Science Conference  
 2015 AGU Fall Meeting, San Francisco (**invited**)  
 Goldschmidt Conference, Prague  
 46<sup>th</sup> Lunar and Planetary Science Conference  
 2014 6th International Lherzolite Conference, Marrakech  
 2013 44<sup>th</sup> Lunar and Planetary Science Conference  
 2011 42<sup>rd</sup> Lunar and Planetary Science Conference

### Field Experience

2024 **Shipboard Co-Investigator for NSF-funded project, Collaborative Research: Magmatic and Mechanical Extension of the Challenger Deep Forearc Segment: Insights into Subduction Initiation**  
 This expedition sampled mantle and crustal rocks from the Challenger Deep forearc by robotic submersible to observe thermal and geochemical signatures of subduction initiation. Three UT graduate students under Dygert's supervision participated.

2017 – 2024 **Mineralogy field trips in East Tennessee, western North Carolina, and Virginia**  
 Led day-long field trips to Ducktown copper basin, Corundum Knob ultramafic body, Norris Lake kimberlite, Lost Creek barite mine, and Mt. Rogers for groups of five to 30 students.

2022 **Rio Grande Rift and Jemez Lineament xenolith sampling, New Mexico**  
 Planned and led a week-long mantle and crustal xenolith sampling trip with three graduate students, collecting in a south-north traverse (Kilbourne Hole to the Cerro de Guadalupe Puerco Neck). Xenoliths will be used as experimental starting materials and for thesis projects.

2018 **Oman Drilling Project core description, igneous team, Japan**  
 Described primary drill core mineralogy and thin sections, calculated mineral modes, presented findings and coauthored igneous team report.

2018 **Oman Drilling Project coring operation, active serpentization hole, Oman**  
 Described, scanned and processed serpentized peridotite drill core.

2016 **Lunar Crater volcanic field, central Nevada**  
 Planned, organized and led a successful sampling campaign

2016 **Bay of Islands ophiolite, Newfoundland.**  
 Participated in a semester-long tectonics seminar culminating in a two-week field trip led by John Dewey and Jack Casey.

2015 **Bohemian massif, Czech Republic**

- 2014 Sampled peridotite and eclogite xenoliths in Cenozoic alkaline volcanics .  
**Beni Bousera peridotite, Morocco**
- 2011 Sampled massif peridotites in a traverse across the margin of the body.  
**CRUML anorthosite belt, Charlevoix impact crater, Quebec**  
 Planned, organized and led a week-long field trip with ~15 participants.
- 2009 **Trinity and Josephine ophiolites, California**  
 Located and sampled shear zones and pyroxenites.
- 2006 **Jayu Khota Crater, Oruro Department, Bolivian Altiplano**  
 Independently planned and conducted successful field campaign.
- 2005 **Bolivian Altiplano and Yungas**  
 Served as field assistant to Prof. Carmala Garziona sampling surface waters, paleosols and fossils.

### Beamtime Awards at National Laboratories

#### Completed

- 2021 **GUP-74737**: Beamline 16BM-B, Advanced Photon Source. Award: 6 shifts
- 2020 **GUP-69721**: Beamline 16BM-B, Advanced Photon Source. Award: 9 shifts
- 2019 **GUP-65862**: Beamline 16BM-B, Advanced Photon Source. Award: 15 shifts
- 2018 **GUP-59593**: Beamline 16BM-B, Advanced Photon Source. Award: 15 shifts
- 2018 **GUP-56580**: Beamline 16BM-B, Advanced Photon Source. Award: 12 shifts
- 2016 **GUP-46492**: Beamline 16BM-B, Advanced Photon Source. Award: 12 shifts

### Professional and Industry Experience

- 2008 – 2009 **Environmental Scientist**, Apex Companies
- 2008 **Field Geologist**, McPhail Associates Geotechnical Consultants
- 2007 **IAESTE Intern**, Manipal Institute of Technology, Karnataka, India  
**McNair Fellow**, Florida Center for Analytical Electron Microscopy

 2022 – 2023 **Member of Search Committee** for Isotope Lab Manager  
 2021 **Developed New Planetary Geoscience Concentration**  
 2021 – 2022 **Member of Search Committee** for Isotope Geochemist  
 2021 **Member of Search Committee** for Department Head  
 2021 **Attained Vol Core Engaged Inquiries Designation** for Mineralogy  
 2020 – 2022 **Undergraduate Advisor**, Geology Concentration  
 2019 – 2021 **Undergraduate Program Committee Member**  
 2019 – 2024 **Student Success (Discretionary Fund) Committee Member**  
 2019 **Member of Search Committee** for Isotope Geochemist  
 2019 **Judge**, EURēCA Undergraduate Research Symposium  
 2019 **Department Faculty Representative**, Geoconclave Jamboree  
 2017 – 2019 **Tennessee Space Grant Consortium Advisory Committee Member**  
 2017 – 2019 **Strong Hall Space Committee Member**  
 2018 **Member of Search Committee** for Teaching Assistant Coordinator

#### Past Departmental Service at the Jackson School of Geosciences

2017 **Electron Microprobe Manager** (interim)  
 2016; 2017 **Judge**, Jackson School of Geosciences Research Symposium  
 2016 **Geoscience Leadership Organization for Women (GLOW) Scholarship Committee**  
 2015 – 2016 **Invited and hosted** three visiting seminar speakers

#### Past Departmental Service at Brown University

2010 – 2012 **Electron Microprobe Manager** (interim)  
 2011 **Leader and Organizer** of graduate student field trip (Quebec)  
 2011 **Organizer** of the geochemistry seminar

Social Media Dygert is active in science communication on the social media platform X (formerly Twitter; @NickDygert). His posts focus on science, teaching, outreach, and advocacy for his lab group, the Department of Earth and Planetary Sciences and life in East Tennessee.

### Professional Affiliations

American Geophysical Union  
 Geochemical Society  
 Mineralogical Society of America  
 Geological Society of America  
 National Association of Geoscience Teachers

### Advising, Mentoring, and Professional Supervision

#### Graduated

2024 **Jena Samano** (MS, co-advised with Molly McCanta)

- Petrologic and geothermal profile of the lithosphere beneath Kilbourne Hole based on geochemical analysis of a mantle and crustal xenolith
- 2023 **Dian Ji** (MS)  
Thesis: Numerical and experimental constraints on trace element fractionation during lunar magma ocean solidification  
→ PhD Program, Rice University
- 2023 **Megan Mouser** (PhD, transitioned from MS track in June 2019)  
Dissertation: Experimental approaches to evaluating silicate melt properties and trace element fractionation during crystallization at high pressures and high temperatures  
→ Postdoc, Earth and Planets Laboratory, Carnegie Institution for Science; Research Scientist, NASA Johnson Space Center
- 2022 **Nadine Grambling** (PhD)  
Dissertation: Natural, Experimental, and Educational Explorations of the Interiors of Terrestrial Planetary Bodies  
→ Postdoc, Mantle Processes Group, University of Delaware
- 2020 **Megan Mouser**, MS (Concurrent)  
Thesis: Experimental investigation of Mercury's magma ocean viscosity: Implications for the formation of Mercury's cumulate mantle, its subsequent dynamic evolution, and crustal petrogenesis
- Current Graduate Advisees
- 2024 – Present **Anah Bogdan** (PhD track)
- 2024 – Present **George Denny** (PhD track)
- 2023 – Present **Emily Etheridge** (PhD track), thermochemical signatures of subduction initiation in the Mariana Trench forearc, thermal histories of enstatite chondrites and aubrites
- 2020 – Present **Jesse Scholpp** (PhD track), thermochemical evolution of the lunar mantle and petrogenesis and constraints on sources of Walvis Ridge basalts
- Postdocs
- 2021 **Brendan Anzures**, Thermal-chemical- $fO_2$  evolution of the Winonaite and IAB iron meteorite parent body  
→ Postdoc and then Research Scientist, NASA Johnson Space Center
- 2018 – 2021 **Michael P. Lucas**, Thermal histories of H, L, LL, and acapulcoite-lodranite parent asteroids: evidence for collisional fragmentation-reassembly  
→ Postdoc, University of Notre Dame
- Professional Staff
- 2019 – Present **Robert Jacobsen**, PhD, Assistant Director, University of Tennessee Space Grant
- Undergraduate Research Advisees at the University of Tennessee
- Current
- 2023 – Present **Rachel Huk**, Mineralogy of preserved dinosaurian skin from an *Edmontosaurus* mummy, with Stephanie Drumheller-Horton
- Completed
- Summer 2024 **Chris O'Connell**, Thermal histories of lunar anorthosites (visiting from Colgate)
- 2022 – 2024 **Jordan Marshall**, Phase equilibria in a Mercurian system  
→ PhD program in Materials Engineering at the University of Tennessee
- 2023 **Olivia Wilkerson**, Petrogenesis of basalts from the Walvis Ridge hotspot
- Summer 2022 **Máté Garai**, Thermal history of asteroid Vesta (Máté was a visiting Physics major from Sewanee)

- 2021 – 2022 → Rhodes Scholar Finalist; PhD program in Physics at CU Boulder  
**Noah Hooper**, Effective metal flotation on magma oceans  
 → Graduate School, Brown University (PhD track)
- 2018 – 2021 **Beau Boring**, Dynamic evolution of lithosphere beneath Ross Island, Antarctica, Major element chemistry of peridotites from the Oman ophiolite, and Experimental Petrology  
 → Graduate School, Brown University (PhD track)
- 2019 – 2021 **Taryn Hicks**, Thermal history and trace element geochemistry of mantle xenoliths from the southwest US  
 → Graduate School, Auburn University (MS track)
- 2019 – 2020 **Kenley Prescher**, Trace element partitioning in Mercurian systems
- 2018 – 2019 **Joseph Nuttall**, Thermal and deformation history of mantle xenoliths from the southwest US  
 → Geospatial Analyst, Wiser Consultants
- Summer 2018 **Warren Eherenfried**, Thermal and deformation history of Siberian mantle xenoliths  
 → GIS Consultant, Atmos Energy
- Summer 2018 **Christopher Wilson**, Petrography and mineralogy of impactites from the Flynn Creek structure, Middle Tennessee  
 → Environmental Scientist, Dallas Texas

## Undergraduate Research Advisees at the University of Texas

- Summer 2017 **Riley Winebarger**, High temperature low pressure piston cylinder experiments  
 → Graduate School, Colorado School of Mines (MS track)
- 2016 – 2017 **Emily Pease**, Tectonic history of the Spongtag ophiolite  
 → Graduate School, University of Texas at Austin (MS track)
- 2016 – 2017 **Jesse Gu**,  $^3\text{He}/^{22}\text{Ne}$  systematics of oceanic basalts  
 → Graduate School, Harvard (PhD track)

## Undergraduate Research Advisee at Brown University

- Summer 2013 **Reed Mershon**, Analytical methods in geochemistry, field geology, experimental petrology, rock deformation  
 → Graduate School, University of Hawaii (PhD track)

## Thesis Committees (active)

- 2024 – Present **Ben Alexander**, University of Tennessee, MS advisor Shichun Huang
- 2024 – Present **Mohammed Elnur**, University of Tennessee, PhD advisor Khalid AlShibli (Civil Engineering)
- 2023 – Present **Justin Hardin**, University of Tennessee, PhD advisor Shichun Huang
- 2023 – Present **Micki Recchuiti**, Department of Marine, Earth and Atmospheric Sciences, North Carolina State University, PhD advisor Arianna Soldati

## Thesis Committees (completed)

- 2024 **Jialong Ren**, Department of Geological Sciences, University of Texas at Austin, PhD advisor Marc A. Hesse
- 2024 **Clarissa (CJ) Leight**, University of Tennessee, PhD advisor Molly McCanta
- 2023 **Cole Nypaver**, University of Tennessee, PhD advisor Bradley Thomson
- 2022 **Julie Coulombe**, University of Tennessee, MS advisor Molly McCanta
- 2022 **Carsen Adams**, University of Tennessee, MS advisor Micah Jessup
- 2022 **Tyler Grambling**, University of Tennessee, Knoxville, PhD advisor Micah Jessup
- 2022 **Micki Recchuiti**, University of Tennessee, MS advisor Molly McCanta
- 2021 **Corey Flynn**, University of Tennessee, MS advisor Micah Jessup
- 2021 **Robert Reid**, University of Tennessee, MS advisor Molly McCanta
- 2021 **Ammar Elhassan**, University of Tennessee, PhD advisor Z. John Ma (Civil Engineering)

2021	<b>Fiona Clark</b> , University of Cape Town, South Africa, MS advisor Phil Janney
2020	<b>Lucas McClure</b> , University of Tennessee, BS Honors thesis, advisor Sean Lindsay (Physics)
2020	<b>Hannah Teffeteller</b> , University of Tennessee, MS advisor Molly McCanta
2019	<b>Sarah Roberts</b> , University of Tennessee, PhD advisor Molly McCanta
2019	<b>Jennifer Harding</b> , Institute for Geophysics, University of Texas at Austin, PhD advisors Harm van Avendonk and Nick Hayman
2018	<b>Rachel Bernard</b> , University of Texas at Austin, PhD advisor Whitney Behr
2018	<b>Mathieu Rospabé</b> , Université Paul Sabatier, Toulouse France, PhD advisors Georges Culeneer and Patrick Pinet

#### Senior Design Projects

2020 – 2021	<b>Kah Choong, Kate Eikel, Cole Frantz, Noah Sloan</b> , Materials Science and Engineering, University of Tennessee. Co-supervised with Chris Wetteland, Kurt Sickafus. Design of a High-Temperature Vacuum Furnace for Replication of Chondrite Formation Conditions in Space
-------------	--

#### Graduate Mentoring

2014; 2017	<b>Pamela Speciale</b> , University of Texas at Austin, Rock deformation in the Griggs apparatus; piston cylinder experiments and microanalysis.
------------	--

### Community Outreach

#### Materials Assessment for Community Members

2024	14 evaluations
2023	14 evaluations
2022	11 evaluations
2021	10 evaluations
2020	13 evaluations
2019	8 evaluations
2018	6 evaluations
2017	2 evaluations

#### Speaking Engagements

2023	Knoxville Montessori School
2021	University of Tennessee Science Forum
2019	Knoxville Gem and Mineral Society
2018	Oak Ridge Isochronous Observation Network
2017	U. Texas Planetary Organization for Space Science and Exploration
