

Nicholas J. Dygert

Department of Earth, Environmental and Planetary Sciences | University of Tennessee
ndygert1@utk.edu | (865) 974 6022 | <https://dygert.utk.edu/> | 1514 Citations | h-index 22

Research Interests

Using experiments, analyses of natural materials, numerical models, and field observations to understand dynamic processes in planetary interiors. Petrogenesis and high-temperature geochemistry. Melt migration and melt-rock reaction. Rheological properties of minerals and melts, two phase flow. Trace element partitioning. Earth and Planetary science.

Academic Appointments

Present	Lawrence and Dawn Taylor Associate Professor Department of Earth and Planetary Sciences, University of Tennessee
2019 – 2023	Lawrence and Dawn Taylor Assistant Professor Department of Earth and Planetary Sciences, University of Tennessee
2017 – 2019	Assistant Professor Department of Earth and Planetary Sciences, University of Tennessee
2015 – 2017	Distinguished Postdoctoral Fellow Department of Geological Sciences, University of Texas at Austin Mentors: Whitney M. Behr, Marc A. Hesse, Jung-Fu (Afu) Lin

Academic Preparation

2015	Ph.D. , Brown University Experimental petrology, geochemistry, rock deformation Advisors: Yan Liang and Greg Hirth; Committee: Steven W. Parman, E. Marc Parmentier, Peter B. Kelemen Thesis: Experimental and field constraints on the physicochemical evolution of the terrestrial and lunar mantles
2007	B.S., cum laude , University of Rochester Major: Geochemistry, Minor: History Advisors: Asish R. Basu and Carmala N. Garzione Thesis: Petrochemistry of the Jayu Khota crater, Bolivian Altiplano

Publications

Funding

Active to Dygert: \$1,067,067 in research; \$351,061 in outreach
 Awarded to date: \$2,566,257 in research; \$795,915 in outreach

Research (Active)

- 2025 – 2028 **Experimental Investigation of Lunar Mantle Rheology: Critical Parameters for Understanding Cumulate Mantle Overturn and the Thermochemical Evolution of The Moon**
 NASA Solar System Workings Program
 \$853,724 (total), \$341,951 to PI Dygert; Co-PIs Greg Hirth, Yan Liang (Brown).
- 2025 – 2027 **Thermal Evolution of Enstatite Chondrite and Aubrite Parent Bodies: Constraints from Silicate Geothermometry**
 NASA Future Investigators in NASA Earth and Space Science and Technology (FINESST) Program
 \$147,277 to PI Dygert; FI (Future Investigator) PhD student Emily Etheridge
- 2023 – 2028 **Research Activities Supporting Science and Lunar Exploration (RASSLE)**
 NASA Solar System Exploration Research Virtual Institute (SSERVI) CAN-4
 \$568,059 to Co-I Dygert; PI Caleb Fassett (JHU-APL)

Outreach (Active)

- 2023 – 2026 **University of Tennessee Space Outreach Activities in East Tennessee**
 NASA Space Grant Program, \$339,891 + a \$10,170 augmentation
 Institutional PI Dygert (Lead PI A. Strauss, Vanderbilt)
- 2023 – 2026 **Collaborative Research: Cultivating Tomorrow's Innovators through Exploring Planetary Images with Artificial Intelligence**
 NSF Advancing Informal STEM Learning Program, \$1.7M
 Co-PI Dygert; with PI Ping Wang (PSI), and others.

Completed

- 2023 – 2026 **Collaborative Research: Evolution of the Tristan-Gough-Walvis Ridge Hotspot System: Age and Composition of Expedition 391/397T Volcanic Basement**
 NSF Marine Geology and Geophysics Program
 \$195,944 to Co-PI Dygert; Science PI Jesse Scholpp (Tennessee). With Wendy Nelson (PI), Bob Duncan, John Shervais, and others.
- 2020 – 2025 **Oak Ridge National Laboratory / University of Tennessee Science Alliance**
 \$29,349.
- 2020 – 2025 **University of Tennessee Space Outreach Activities in East Tennessee**
 NASA Space Grant Program, \$326,556 + \$119,298 in augmentations

2021 – 2025	Institutional PI Dygert (Lead PI A. Strauss, Vanderbilt) Collaborative Research: Magmatic and Mechanical Extension of the Challenger Deep Forearc Segment: Insights into Subduction Initiation NSF OCE Marine Geology and Geophysics Program, \$122,481 to Co-I Dygert; PI Robert Stern (UT Dallas)
2020 – 2023	Experimental geochemistry and model constraints on lunar mantle dynamics NASA Solar System Workings Program, \$261,128 PI Dygert.
2022 – 2023	Petrogenesis of basalt lavas from the Tristan and Gough hotspot: Insights from mineral and melt inclusion chemistry United States Science Support Program (on contract from NSF) \$17,991 to PI Dygert; Science PI PhD student J. Scholpp
2018 – 2023	New constraints on thermal evolution, thermal structure, and magmatism on asteroids: Application of a REE-in-two pyroxene thermometer to meteorites and development of next-generation thermal models, and a post-COVID19 Funded Extension request NASA SMD Post-COVID Recovery Program, \$110,907 to PI Dygert; NASA Solar System Workings Program, \$329,619 total; \$254,734 to PI Dygert; Co-PIs Harry Y. McSween, Marc A. Hesse.
2023	Participation of Jesse Scholpp on IODP Expedition 391 United States Science Support Program (on contract from NSF) \$6,426 to PI Dygert; Science PI PhD student J. Scholpp
2017 – 2022	Rheology of an evolving lunar mantle: New experimental constraints and generalized mantle viscosity models. NASA Solar System Workings Program, \$222,375 to Dygert Co-PI with Greg Hirth (PI), Yan Liang (Co-PI).
2021	Geochemical Interaction between CO₂ and Caprock for Safe Carbon Sequestration University of Tennessee Institute for a Secure & Sustainable Environment (ISSE), \$45,000, Co-I with Khalid Alshibli (PI).
2015 – 2017	Melt migration dynamics revealed by two-dimensional geochemical mapping of tabular dunites at the Bay of Islands Ophiolite, Newfoundland Jackson School of Geosciences Distinguished Postdoctoral Fellowship, \$140,000
2016	Effective viscosity of planetary mantles: Developing predictive models from experimental observations Jackson School of Geosciences Seed Grant, \$13,750 Co-I with Whitney Behr
2014	International Travel Grant 6th Lherzolute Conference, Marrakech, \$2,000 Dissertation Fellowship Brown University
2012 – 2013	Rheology of ilmenite and ilmenite-bearing harzburgite Rhode Island Space Grant Graduate Fellowship, ~\$12,000

Honors

2025	Visiting Scientist , Woods Hole Oceanographic Institution
2024	College of Arts and Sciences Convocation Research Award – Early Career
2024	Lifelong Learner Award , Muse Knoxville
2024	Adjunct Professor , Department of Marine, Earth, and Atmospheric Sciences, North Carolina State University
2024	A Top Cited Article 2022-2023: Meteoritics and Planetary Science
2020	A Most Downloaded Paper in 2019: Journal of Geophysical Research – Solid Earth
2019	Endowment: Lawrence and Dawn Taylor Chair in Planetary Geosciences

2019	Outstanding Teacher Award , University of Tennessee Geoclub For commitment to service as an educator and mentor to both graduate and undergraduate students
2015	Dissertation Prize , Sigma Xi, Brown Chapter
2014	Distinguished Postdoctoral Fellowship , University of Texas at Austin
2012	Rhode Island Space Grant Graduate Fellowship
2012	Inducted into Sigma Xi
2007	McNair Summer Research Fellowship , Florida International University
2007	B.S. awarded with High Distinction and High Honors in Research University of Rochester
2007	Inducted into Sigma Gamma Epsilon (Earth Science honor society)
2003 – 2007	Dean's List 7/8 eligible semesters University of Rochester

Teaching Experience

University of Tennessee, Knoxville

2025	Seminar in Meteoritics (EEPS 630) Three credit graduate-level seminar (nine students). Overall student evaluation 4.95 / 5
2019; 2022; 2024; 2025	Geochemical Modeling (GEOL 490/590) Three credits. Overall student evaluation 4.85; 5.0 / 5 (2019; 2024; taught as an independent study for three students in 2022 and two students in 2025)
2017 – 2024	Mineralogy (GEOL 310) Four credits. Overall student evaluations 4.53; 4.70; 4.45; 4.48; 4.52; 4.35; 3.97; 4.62 / 5 (2017; 2018; 2019; 2020; 2021; 2022; 2023; 2024)
2023	Mariana Trench Studies (GEOL 490/590) Two credits (seven UTK students). This multi-institutional, multinational seminar-lecture prepared the research team for an upcoming cruise to sample the Challenger Deep forearc and provided a foundational background for students interested in marine geology. Overall student evaluation 4.91 / 5
2023	Kinetics (GEOL 630) Three credit graduate seminar. Spring 2023, enrollment (seven) precluded release of course evaluation data.
2018 – 2021	Scientific Presentations (GEOL 596) One credit. Overall student evaluations 4.46; 4.19; 4.43; 4.36 / 5 (2018; 2019; 2020; 2021)
2021	New Views of the Moon (GEOL 630) Three credit graduate-level seminar (13 students). Overall student evaluation 4.78 / 5
2020	Exploring the Planets (GEOL 104) Four credit introductory course (106 students). Overall student evaluation 3.80 / 5

Pedagogical and Professional Training

2025	Planning for What's Next Career Advancement Workshop
2024	University of Tennessee Safe Zone Training (Tier 2)
2022	Vols ACT (Active Bystander) Training
2018; 2021	University of Tennessee Strategies and Tactics for Recruiting to Improve Diversity and Excellence (STRIDE) Training
2021	University of Tennessee Safe Zone Training (Tier 1)
2019	SERC Career Development Workshop for Early Career Geoscience Faculty
2019	University of Tennessee Initiative for the Future Faculty Mentoring Program
2017	University of Tennessee New Faculty Teaching Institute
2016	SERC Preparing for an Academic Career in the Geosciences Workshop

2014 Sheridan Center for Teaching and Learning, Brown University
Certificate I, Reflective Teaching

Invited Seminars

2026 Virginia Tech (department seminar)
2025 Brown University (department seminar)
CASA Moon NASA SSERVI Group (planetary sample science seminar)
University of New Mexico (department seminar)
2024 University of Tokyo, Japan (geochemistry group seminar)
2022 Michigan State University (department seminar)
Pennsylvania State University (department seminar)
University of Mississippi (department seminar)
2021 South Dakota School of Mines and Technology (department seminar)
2020 Purdue University (department seminar)
Fermilab (lab colloquium, canceled because of COVID-19)
University of Chicago (department seminar)
2018 Case Western Reserve University (department seminar)
University of Georgia (department seminar)
Centre National de la Recherche Scientifique, Toulouse, France (Solid Earth group seminar)
2017 University of Tennessee, Knoxville (department seminar)
Western Carolina University (department seminar)
2016 NASA, Johnson Space Center (astromaterials seminar)
Southern Methodist University (department seminar)
2015 Institute for Geophysics, UT Austin (department seminar)
Jackson School of Geosciences, UT Austin (department seminar)
Rice University (department seminar)
University of Texas at Arlington (department seminar)
2014 Geophysical Laboratory, Carnegie Institution of Washington
2013 Woods Hole Oceanographic Institution (marine geology group seminar)
Massachusetts Institute of Technology (planetary group seminar)

Conference Talks

2027 6th Earth Mantle Workshop, Sopron, Hungary (**invited**)
2026 ExPet26, Earth and Planets Laboratory, Carnegie Institution for Science
NASA Exploration Science Forum, Moffett Field, CA
Inner Solar System Workshop, Rice University (**invited**)
57th Lunar and Planetary Science Conference
2025 NASA Exploration Science Forum, Albuquerque
19th International Symposium on Experimental Mineralogy, Petrology and Geochemistry, Orleans France
56th Lunar and Planetary Science Conference (two talks)
2024 55th Lunar and Planetary Science Conference
2023 GSA Fall Meeting, Pittsburgh (**invited**)
Goldschmidt Conference, Lyon (**invited**)
2021 AGU Fall Meeting, New Orleans
52nd Lunar and Planetary Science Conference
2019 AGU Fall Meeting, San Francisco
50th Lunar and Planetary Science Conference
2018 AGU Fall Meeting, Washington DC (**invited**)
67th GSA Southeast Section Meeting, Knoxville
49th Lunar and Planetary Science Conference

2017	AGU Fall Meeting, New Orleans (two talks; one invited) Goldschmidt Conference, Paris (invited) 48 th Lunar and Planetary Science Conference
2015	AGU Fall Meeting, San Francisco (invited) Goldschmidt Conference, Prague 46 th Lunar and Planetary Science Conference
2014	6th International Lherzolite Conference, Marrakech
2013	44 th Lunar and Planetary Science Conference
2011	42 rd Lunar and Planetary Science Conference

Field Experience

2024	Shipboard Co-Investigator for NSF-funded project, Collaborative Research: Magmatic and Mechanical Extension of the Challenger Deep Forearc Segment: Insights into Subduction Initiation This expedition sampled mantle and crustal rocks from the Challenger Deep (Mariana Trench) forearc by robotic submersible to observe thermal and geochemical signatures of subduction initiation. Three UT graduate students under Dygert's supervision participated.
2017 – 2024	Mineralogy field trips in East Tennessee, western North Carolina, and Virginia Led day-long field trips to Ducktown copper basin, Corundum Knob ultramafic body, Norris Lake kimberlite, Lost Creek barite mine, and Mt. Rogers for groups of five to 30 students.
2022	Rio Grande Rift and Jemez Lineament xenolith sampling, New Mexico Planned and led a week-long mantle and crustal xenolith sampling trip with three graduate students, collecting in a south-north traverse (Kilbourne Hole to the Cerro de Guadalupe Puerco Neck). Xenoliths will be used as experimental starting materials and for thesis projects.
2018	Oman Drilling Project core description, igneous team, Japan Described primary drill core mineralogy and thin sections, calculated mineral modes, presented findings and coauthored igneous team report.
2018	Oman Drilling Project coring operation, active serpentization hole, Oman Described, scanned and processed serpentized peridotite drill core.
2016	Lunar Crater volcanic field, central Nevada Planned, organized and led a successful sampling campaign
2016	Bay of Islands ophiolite, Newfoundland. Participated in a semester-long tectonics seminar culminating in a two-week field trip led by John Dewey and Jack Casey.
2015	Bohemian massif, Czech Republic Sampled peridotite and eclogite xenoliths in Cenozoic alkaline volcanics .
2014	Beni Bousera peridotite, Morocco Sampled massif peridotites in a traverse across the margin of the body.
2011	CRUML anorthosite belt, Charlevoix impact crater, Quebec Planned, organized and led a week-long field trip with ~15 participants.
2009	Trinity and Josephine ophiolites, California Located and sampled shear zones and pyroxenites.
2006	Jayu Khota Crater, Oruro Department, Bolivian Altiplano Independently planned and conducted successful field campaign.
2005	Bolivian Altiplano and Yungas Served as field assistant to Prof. Carmala Garzione sampling surface waters, paleosols and fossils.

Beamtime Awards at National Laboratories

Pending

2026 **GUP-1019071:** Beamline 16BM-B, Advanced Photon Source. Request: 9 shifts, co-investigator with Megan Mouser

Completed

2021 **GUP-74737:** Beamline 16BM-B, Advanced Photon Source. Award: 6 shifts
 2020 **GUP-69721:** Beamline 16BM-B, Advanced Photon Source. Award: 9 shifts
 2019 **GUP-65862:** Beamline 16BM-B, Advanced Photon Source. Award: 15 shifts
 2018 **GUP-59593:** Beamline 16BM-B, Advanced Photon Source. Award: 15 shifts
 2018 **GUP-56580:** Beamline 16BM-B, Advanced Photon Source. Award: 12 shifts
 2016 **GUP-46492:** Beamline 16BM-B, Advanced Photon Source. Award: 12 shifts

Professional and Industry Experience

2008 – 2009 **Environmental Scientist**, Apex Companies
 2008 **Field Geologist**, McPhail Associates Geotechnical Consultants
 2007 **IAESTE Intern**, Manipal Institute of Technology, Karnataka, India
McNair Fellowship, Florida Center for Analytical Electron Microscopy

Professional Service

2026	Proposed American Geophysical Union Fall Meeting session on Planetary Evolution
2024 – Present	Associate Editor , Geochimica et Cosmochimica Acta
2026	Ad-hoc review , NSF Program (×2)
2026	Panelist , NASA ROSES Program
2017; 2026	Lunar and Planetary Science Conference Program Committee
2016 – 2026	External reviewer , NASA ROSES Program (×11)
2025	Session Chair , NASA Exploration Science Forum
2025	Ad-hoc review , NSF EAR Program
2017; 2019; 2021; 2024; 2025	Session Chair , Lunar and Planetary Science Conference
2015; 2019; 2024	Judge , Dwornik Award, Lunar and Planetary Science Conference
2023	Ad-hoc review , NSF OCE Program
2023	Panelist , NASA ROSES Program (×3)
2022	Panelist , NASA ROSES Program
2021	Panelist , NSF OCE Program
2017; 2019; 2021	Judge , AGU Outstanding Student Presentation Award
2021	Session Convener , Goldschmidt Conference, Lyon, France <i>Chemical geodynamics throughout the Solar System — Combining insights from observations, experiments, analogues, and models</i>
2020	Panelist , NASA ROSES Program
2020	Reviewer , Internal Proposal at an EU Institution
2019	Primary Session Convener , AGU Fall Meeting <i>Rates and Timescales of Magmatic and Dynamic Processes: Insights from Thermobarometry and Geospeedometry</i>
2019	Ad-hoc reviewer , NSF OCE Program (×2)
2018	Secretary , Geoconclave organizing committee
2018	Panelist , NASA ROSES Program
2018	Lead Organizer , Geoconclave Jamboree
2015 – 2017	Coordinator , AGU Outstanding Student Paper Award, VGP Section
2015	Primary Session Convener , AGU Fall Meeting <i>Peridotite Records of Mantle Dynamics</i>

Current Service at the University of Tennessee

2026 – Present	Director of Graduate Studies
2026 – Present	Governance and Procedures Committee
2025 – Present	Interim Director , ICP-MS Core Facility
2025 – Present	Center for Planetary Science and Exploration (CPSE) Leadership Committee
2024 – Present	College of Arts and Sciences Curriculum Committee
2021 – Present	Graduate Admissions and Program Committee Member
2019 – Present	PI and Director , University of Tennessee NASA Space Grant Consortium
2017 – Present	Supervisor , X-ray Diffractometer

Past Service at the University of Tennessee

2026	Member of Search Committee for faculty in Isotope Geochemistry
2025	Peer Teaching Evaluation (Committee chair)
2024 – 2025	Member of Search Committee for faculty in Critical Minerals
2025	Panelist , College of Arts and Sciences Workshop on the Pursuit of External Funding
2022 – 2024	Saw Lab Czar
2023 – 2024	Chair of Search Committee for Structural Geologist

2023	Member of Search Committee for Structure Lecturer
2022 – 2023	Member of Search Committee for Isotope Lab Manager
2021	Developed New Planetary Geoscience Concentration
2021 – 2022	Member of Search Committee for Isotope Geochemist
2021	Member of Search Committee for Department Head
2021	Attained Vol Core Engaged Inquiries Designation for Mineralogy
2020 – 2022	Undergraduate Advisor , Geology Concentration
2019 – 2021	Undergraduate Program Committee Member
2019 – 2024	Student Success (Discretionary Fund) Committee Member
2019	Member of Search Committee for Isotope Geochemist
2019	Judge , EURēCA Undergraduate Research Symposium
2019	Department Faculty Representative , Geoconclave Jamboree
2017 – 2019	Tennessee Space Grant Consortium Advisory Committee Member
2017 – 2019	Strong Hall Space Committee Member
2018	Member of Search Committee for Teaching Assistant Coordinator

Past Departmental Service at the Jackson School of Geosciences

2017	Electron Microprobe Manager (interim)
2016; 2017	Judge , Jackson School of Geosciences Research Symposium
2016	Geoscience Leadership Organization for Women (GLOW) Scholarship Committee
2015 – 2016	Invited and hosted three visiting seminar speakers

Past Departmental Service at Brown University

2010 – 2012	Electron Microprobe Manager (interim)
2011	Leader and Organizer of graduate student field trip (Quebec)
2011	Organizer of the geochemistry seminar

Advising, Mentoring, and Professional Supervision

Graduated

2025	Jesse Scholpp (PhD) Dissertation: Chemical and physical impacts of magma ocean solidification: Insights into lunar magma ocean solidification, mantle formation, and mantle evolution → Postdoc, University of Nevada Reno
2024	Jena Samano (MS, co-advised with Molly McCanta) Petrologic and geothermal profile of the lithosphere beneath Kilbourne Hole based on geochemical analysis of a mantle and crustal xenolith
2023	Dian Ji (MS) Thesis: Numerical and experimental constraints on trace element fractionation during lunar magma ocean solidification → PhD Program, Rice University
2023	Megan Mouser (PhD, transitioned from MS track in June 2019)

	Dissertation: Experimental approaches to evaluating silicate melt properties and trace element fractionation during crystallization at high pressures and high temperatures → Postdoc, Earth and Planets Laboratory, Carnegie Institution for Science; → Research Scientist, NASA Johnson Space Center
2022	Nadine Grambling (PhD) Dissertation: Natural, Experimental, and Educational Explorations of the Interiors of Terrestrial Planetary Bodies → Postdoc, Mantle Processes Group, University of Delaware
2020	Megan Mouser , MS (Concurrent) Thesis: Experimental investigation of Mercury's magma ocean viscosity: Implications for the formation of Mercury's cumulate mantle, its subsequent dynamic evolution, and crustal petrogenesis

Current Graduate Advisees

2024 – Present	Anah Bogdan (PhD track) Lunar differentiation
2024 – Present	George Denny (PhD track) Vestan and Mercurian differentiation
2023 – Present	Emily Etheridge (PhD track), Development and application of geothermometric methods to investigate the thermal histories of terrestrial and planetary bodies

Postdocs

2026 –	Hao Chen , Oxygen fugacity
2021	Brendan Anzures , Thermal-chemical- f_{O_2} evolution of the Winonaite and IAB iron meteorite parent body → Postdoc and then Research Scientist, NASA Johnson Space Center
2018 – 2021	Michael P. Lucas , Thermal histories of H, L, LL, and acapulcoite-lodranite parent asteroids: evidence for collisional fragmentation-reassembly → Postdoc, University of Notre Dame → Research Scientist, Florida Space Institute

Professional Staff

2025 – Present	Brian Duggan , PhD, LA-ICP-MS Lab Manager
2019 – 2025	Robert Jacobsen , PhD, Assistant Director, University of Tennessee Space Grant

Undergraduate Research Advisees at the University of Tennessee

Completed

2026	Dylan Stokes , Curating the donated Dr. Robert H. Collier, Jr and Louise T. Collier gem and mineral collection. → Geologist, SSR Mining
2025	Katarina Hill , Oxygen fugacity of lower crustal xenoliths from the Jemez Lineament
2024 – 2025	Sabrina Sanders , Oxygen fugacity of plagioclase-hosted melt inclusions from Walvis Ridge hotspot, with Jesse Scholpp → Laboratory Assistant, Oak Ridge National Lab
2023 – 2025	Rachel Huk , Mineralogy of preserved dinosaurian skin from an <i>Edmontosaurus</i> mummy, with Stephanie Drumheller-Horton, and geochemistry of the lithosphere along the Jemez lineament, New Mexico → Laboratory Assistant, Oak Ridge National Lab
Summer 2024	Chris O'Connell , Thermal histories of lunar anorthosites (visiting from Colgate)
2022 – 2024	Jordan Marshall , Phase equilibria in a Mercurian system → PhD program in Materials Engineering at the University of Tennessee
2023	Olivia Wilkerson , Petrogenesis of basalts from the Walvis Ridge hotspot
Summer 2022	Máté Garai , Thermal history of asteroid Vesta (Máté was a visiting Physics major from Sewanee)

2021 – 2022	→ Rhodes Scholar Finalist; PhD program in Physics at CU Boulder Noah Hooper , Effective metal flotation on magma oceans → Graduate School, Brown University (PhD track)
2018 – 2021	Beau Boring , Dynamic evolution of lithosphere beneath Ross Island, Antarctica, Major element chemistry of peridotites from the Oman ophiolite, and Experimental Petrology → Graduate School, Brown University (PhD track)
2019 – 2021	Taryn Hicks , Thermal history and trace element geochemistry of mantle xenoliths from the southwest US → Graduate School, Auburn University (MS track)
2019 – 2020	Kenley Prescher , Trace element partitioning in Mercurian systems
2018 – 2019	Joseph Nuttall , Thermal and deformation history of mantle xenoliths from the southwest US → Geospatial Analyst, Wiser Consultants
Summer 2018	Warren Eherenfried , Thermal and deformation history of Siberian mantle xenoliths → GIS Consultant, Atmos Energy
Summer 2018	Christopher Wilson , Petrography and mineralogy of impactites from the Flynn Creek structure, Middle Tennessee → Environmental Scientist, Dallas Texas

Undergraduate Research Advisees at the University of Texas

Summer 2017	Riley Winebarger , High temperature low pressure piston cylinder experiments → Graduate School, Colorado School of Mines (MS track)
2016 – 2017	Emily Pease , Tectonic history of the Spongfang ophiolite → Graduate School, University of Texas at Austin (MS track)
2016 – 2017	Jesse Gu , $^3\text{He}/^{22}\text{Ne}$ systematics of oceanic basalts → Graduate School, Harvard (PhD track)

Undergraduate Research Advisee at Brown University

Summer 2013	Reed Mershon , Analytical methods in geochemistry, field geology, experimental petrology, rock deformation → Graduate School, University of Hawaii (PhD track)
-------------	--

Thesis Committees (active)

2026 – Present	Jacquelin Cao , University of Tennessee, MS advisor Molly McCanta
2026 – Present	Zhendong Zhang , University of Tennessee, PhD advisor Raph Hix (Physics)
2025 – Present	Liliana Binetti , University of Tennessee, MS advisor Chelsea Mackaman-Lofland
2025 – Present	Thomas Früh , University of Tennessee, PhD advisor Brad Thomson

Thesis Committees (completed)

2024 – Present	Ben Alexander , University of Tennessee, MS advisor Shichun Huang
2026	Micki Recchuiti , Department of Marine, Earth and Atmospheric Sciences, North Carolina State University, PhD advisor Arianna Soldati
2025	Mohammed Elnur , University of Tennessee, PhD advisor Khalid AlShibli (Civil Engineering)
2025	Kaitlyn Gauvey , University of Tennessee, PhD advisor Linda Kah
2025	Justin Hardin , University of Tennessee, MS advisor Shichun Huang
2024	Jialong Ren , University of Texas at Austin, PhD advisor Marc A. Hesse
2024	Clarissa (CJ) Leight , University of Tennessee, PhD advisor Molly McCanta
2023	Cole Nypaver , University of Tennessee, PhD advisor Bradley Thomson
2022	Julie Coulombe , University of Tennessee, MS advisor Molly McCanta
2022	Carsen Adams , University of Tennessee, MS advisor Micah Jessup
2022	Tyler Grambling , University of Tennessee, Knoxville, PhD advisor Micah Jessup

2022	Micki Recchuiti , University of Tennessee, MS advisor Molly McCanta
2021	Corey Flynn , University of Tennessee, MS advisor Micah Jessup
2021	Robert Reid , University of Tennessee, MS advisor Molly McCanta
2021	Ammar Elhassan , University of Tennessee, PhD advisor Z. John Ma (Civil Engineering)
2021	Fiona Clark , University of Cape Town, South Africa, MS advisor Phil Janney
2020	Lucas McClure , University of Tennessee, BS Honors thesis, advisor Sean Lindsay (Physics)
2020	Hannah Teffeteller , University of Tennessee, MS advisor Molly McCanta
2019	Sarah Roberts , University of Tennessee, PhD advisor Molly McCanta
2019	Jennifer Harding , Institute for Geophysics, University of Texas at Austin, PhD advisors Harm van Avendonk and Nick Hayman
2018	Rachel Bernard , University of Texas at Austin, PhD advisor Whitney Behr
2018	Mathieu Rospabé , Université Paul Sabatier, Toulouse France, PhD advisors Georges Culeneer and Patrick Pinet

Senior Design Projects

2020 – 2021	Kah Choong, Kate Eikel, Cole Frantz, Noah Sloan , Materials Science and Engineering, University of Tennessee. Co-supervised with Chris Wetteland, Kurt Sickafus. Design of a High-Temperature Vacuum Furnace for Replication of Chondrite Formation Conditions in Space
